

INNOVATE  
BESPOKE GATES AND SECURITY

Innovate Security Ltd are a premier electric gate installer in the Southeast.

We have been operating in the automation and security sector for over 20 years.

All of our bespoke gates are designed and installed to suit our clients needs.

We supply and install the following gates -

Hardwood

Wrought iron

Aluminium

Traditional, modern and contemporary designs.

## WROUGHT IRON

All our wrought iron gates are custom built by British craftsman, using box sectional steel for a long lasting finish.

The steel is then zinc treated and powder coated to your desired colour and finish.

We have dozens of gate and railing designs to choose from and our expert team will be able to match any desired design.

We can compliment any gate installation with matching railings, pedestrian access gates, postboxes and a host of personalised touches to make your property stand out from the crowd.

## TIMBER GATES

Every wooden gate is handmade using traditional techniques. Our gates are mortice and tenon jointed, stop chamfered and dowelled.

We do not use any nuts, bolts or nails to construct any of our timber gates, we use traditional carpentry skills.

Our hardwood gates come in a range of timbers from the most popular iroko hardwood, through to sapele, utile and accoya.

We can compliment any gate installation with matching fence panels, pedestrian access gates and a host of personalised touches to make your property stand out from the crowd.

The 'bow topped iroko classic'. Our #1 bestseller.

## ALUMINIUM GATES

Aluminium gates, are lightweight, strong and virtually maintenance free.

Our gates do not rot, warp, crack, dry out or soak up water.

There are dozens of designs to choose from, and our aluminium gates are expertly manufactured.

Our aluminium gates are available as either swinging or sliding gates.

## BESPOKE OPTIONS

We understand that a bespoke electric gate is truly a "bucket list" purchase and what better way to complete your project than with a variety of bespoke customisations.

We offer a variety of upgrades such as a handcarved house name or custom designed post box solution.

We also offer a free design service, if you have seen a gate elsewhere, we can duplicate and enhance any design.

## ENTRY SYSTEMS

Our impressive range of intercom and gate entry systems range from simple keypad systems to high specification digital intercoms with full App control.

Our most popular intercom entry system is the GSM audio intercom unit, which utilises a mobile phone SIM card which allows visitors to contact the property owner direct to their chosen landline or mobile phone.

The external entry units and internal video screens are available in a variety of styles and colours to suit any property.

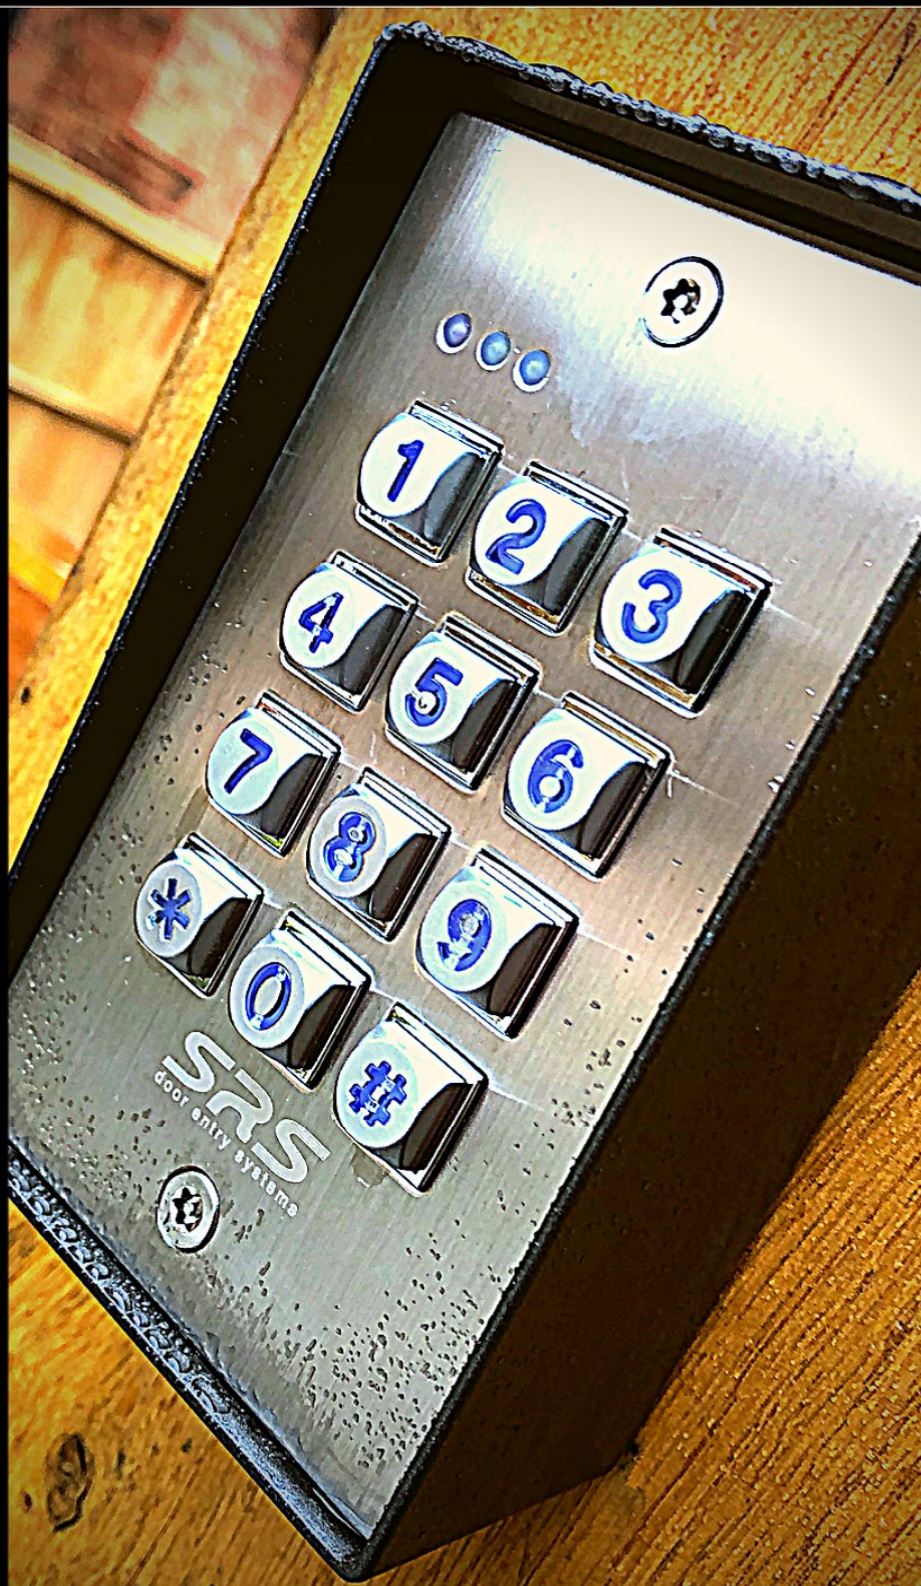

**HIKVISION**  
Authorised Installer

We are proud to be HIKVISION certified installers of megapixel CCTV and intercom entry solutions.

HIKVISION is the biggest manufacturer of HD CCTV and intercom systems in the world and Innovate are certified installers.

We can offer a range of solutions that can be controlled directly from from your smartphone via the hik-connect App.

## OPTIONAL EXTRAS

We offer a range of extra options to customise your gate and enhance your security such as -

- INTERCOM SOLUTIONS
- KEYPADS AND SWITCHES
- CCTV SYSTEMS
- ANPR - NUMBER PLATE RECOGNITION
- VEHICLE EXIT LOOP SENSORS
- VIDEO SCREENS
- RADIO KEYFOBS
- LIGHTING
- POSTBOXES

## DISCREET MOTOR POSTS

We offer a state of the art, naked motor post option for our systems.

if you are looking for a super-sleek, ultra modern look, then this is it !

Our discreet motor post option kills two birds with one stone, not only does this aluminum posts hold the sliding gate in place, but we can also recess an ultra slim gate motor inside the post .

This cutting edge option not only looks amazing, but saves on space and cost.

## CUSTOM RAILINGS

Our range of bespoke, made to measure railings are available in wrought iron, aluminium or timber.

If you have existing brick piers, rendered walls or fixed posts in place, then we can custom build your chosen railings to suit.

Our railings can also be powder coated to your chosen RAL colour of choice, so if you have an existing gate, wall or garage door, we can match this colour in order to perfectly compliment each other.

## CUSTOM HINGES

Our bespoke range of swing gate hinges are state of the art, laser cut and ultra safe.

Due to health and safety regulations, the gap between the gate and post is not allowed to change more than 25mm, our rotating safety hinges address this problem.

These stunning hinges are lazer cut, shaped, powder coated and then expertly routed into the body of the gate.

## GATE SAFETY

a safe gate is defined as one conforming to or exceeding the requirements of BS EN 12453:2001 which requires that: Automatic gates must be protected by "safety edges or intelligent drive units that will retract the gate if it encounters an obstacle.

Innovate, as 'GateSafe premier installers' go above and beyond to insure that all of our electric gate installations comply with all of the current laws and regulations.

All of our gates are 'risk assessed' and fully certificated, keeping you and your family safe.

## BUILDING WORKS

If you require brick piers, granite sets, boundary walls or rendered block walls then innovate can organise these works.

Using our trusted partnerships with local bricklayers, builders and landscaping companies, we can build the driveway of your dreams.

Our other services include block paving, resin bound driveways and raised bed planters,
